Workload will increase in processing of Polish claims, begun in 1961 (payable from trust fund). A 1963 supplemental is forecast for administrative costs connected with the following item.		Workload will increase in processing of Polish claims, begun in 1961		Increased emphasis on prevention of monopolistic and unfair trade practices coupled with expected growth in business activity will result in large increase in workload.				States receive 37.5% of receipts from licenses issued for hydroelectric projects in national forest and public lands.	A study will be made of how future national electric power needs can be met most effectively.	The 1962 supplemental will speed efforts to reduce the backlog of natural		Increase is due to growth in disputes caseload and need for more preventive mediation. It will permit greater use of consultants.	Jose Station	ments, and tariff filings. Increase in 1963 puts the program on a full-	Supplemental for 1962 is to finance new program for licensing ocean
